Week I: Aug. 4-8 | Week II: Aug. 11-15

Camp L.E.A.D.

Where Curiosity Roams and Confidence Grows

Welcome to Camp L.E.A.D.— where 8- to 11-year-olds explore the outdoors and grow through hands-on discovery. It's a week filled with activities like paddling, exploring, splashing, hiking, laughing, leading, and learning by doing.

Your child will:

- **LEARN** build knowledge through interactive lessons and creative thinking
- **EXPLORE** curiosity through hands-on science and wilderness skills
- **ADVENTURE** with new friends through teamwork, laughter, and shared challenges
- **DISCOVER** leadership through real problem-solving

Every activity is designed to help kids unplug, look up, and connect with nature, with each other, and with themselves.

Let's turn summer into something they'll never forget.
